

# Reshaping our future.

Curate has evolved from a project with a single product offering, to a company creating an entire ecosystem. We began with the worlds first NFT marketplace mobile app and a physical goods marketplace, but we're not stopping there. The time has come for us to adjust our tokenomics model, to empower us to continue to grow into the future - developing in several key areas, these include:

**Play to earn Game**  
Earn XCUR tokens through exploration and battle

**Curate Earn App**  
Borrow or lend crypto at industry leading rates

**VC Deals**  
Investment from successful companies with proven track records

**Global Marketing**  
Its time for the world to hear about Curate

**Community Rewards**  
We have a number of exciting initiatives to directly benefit our community
